PROFESSIONAL SUMMARY

Frontend Web Developer with over 2 years of experience building responsive, production-grade interfaces with React.js, Next.js, and TypeScript. Currently building and maintaining customer-facing and admin interfaces for live fintech products, with working knowledge of REST API integration and clean architecture principles. Comfortable owning features end-to-end, from UI implementation through debugging and deployment, and continuously expanding into full-stack and Python fundamentals.

CORE COMPETENCIES

Frontend Development: React.js & Next.js · TypeScript & JavaScript (ES6+) · Responsive UI Development · Tailwind CSS
Integration & Architecture: REST API Integration · Clean Architecture Principles · Version Control (Git/GitHub) · Cross-Team Collaboration with Backend Developers
Professional Attributes: Time Management · Discipline & Reliability · Team Collaboration · Rapport-Building · Multi-Tasking Under Pressure

PROFESSIONAL EXPERIENCE

National Center for Artificial Intelligence and Robotics, NITDA, Abuja (NYSC PPA) July 2025 – Present
Independent Technical Upskilling & Full-Stack Exploration

- Independently studying full-stack fundamentals alongside existing frontend expertise, currently building working knowledge of Python and backend concepts.
- Practicing new concepts through personal projects, reinforcing each topic in real code rather than treating the learning as purely theoretical.

Frontend Developer | Paritie Innovation Hub (Remote) June 2024 – Present

- Build the admin dashboard for Sako, a live fintech product, using React.js and Next.js to give internal teams visibility and control over digital financial services.
- Develop the frontend for Cambio, a second fintech product, applying the clean architecture and component standards established on Sako to a new, concurrent build.
- Contribute to the company's public-facing website, maintaining consistent design and performance standards across both external and internal-facing products.
- Integrate REST APIs to connect frontend interfaces with backend services, ensuring reliable data flow across admin and client-facing views.
- Collaborate with backend developers and designers to debug issues and ship features across two concurrent fintech projects.

Frontend Developer | APPROVIA LIMITED (Remote) Mar 2022 – Apr 2024

- Built responsive user interfaces using HTML, CSS, and JavaScript, translating designs into functional, cross-device layouts.
- Collaborated with backend developers to integrate APIs, ensuring seamless and reliable data exchange between frontend and server.
- Used Git and GitHub for version control in a collaborative development environment, managing code changes across a shared codebase.
- Picked up new languages and technologies as project requirements evolved, adapting quickly to keep pace with changing scope.

EDUCATION

Ahmadu Bello University, Zaria | 2025
Bachelor of Technology, Glass and Silicate Technology

CERTIFICATIONS

FRONT END DEVELOPMENT CERTIFICATION – Future Academy Africa | Dec 2022

TECHNICAL PROFICIENCY

Languages & Frameworks: HTML, CSS, JavaScript, TypeScript, React.js, Next.js
Styling: Tailwind CSS
Integration: REST API Integration, Clean Architecture Principles
Tools: VS Code, Git, GitHub, Postman
